

COOPERATIVE *PHYTOPHTHORA RAMORUM* QUARANTINE PROJECT
EXHIBIT B- NURSERY STOCK
Provisions for the Intrastate and Interstate Movement of
Regulated Nursery Stock from Quarantined Counties

Establishment agrees to the following:

1. Annual Inspection

Establishment shall allow the Project to perform an annual inspection and sampling on regulated host and associated host plants in accordance with 7 CFR 301.92-11 (A) (1).

2. Individual Shipment Inspection

Prior to moving regulated host and associated host plants out of the quarantined area, Establishment shall allow the Project to perform an inspection and sampling of individual shipments or specific lots of regulated host and associated host plants in accordance with 7 CFR 301.92-11 (A) (2).

3. 30-days Shipping Per Inspection

Establishment may move regulated host and associated host plants out of the quarantined area from the date the inspection is completed and for a period of up to 30 days thereafter (or less if specified by the Project) when the regulated host and associated host plants have been inspected in accordance with Provisions 1 and 2 above.

Establishment may move regulated host and associated host plants, originating from other sources, out of the quarantined area within the 30-day inspection period under the following conditions:

- A) The regulated host and associated host plants originated outside the states of California, Oregon and Washington, and are accompanied by a receipt or bill of lading, or
- B) The regulated host and associated host plants originated in the states of California, Oregon, or Washington, and are accompanied by a federal or state quarantine certificate for *Phytophthora ramorum*, or
- C) The uncertified* regulated host and associated host plants originated in the regulated area of California and are not moved **interstate**.

Individual shipments or specific lots of regulated host and associated host plants that are not shipped within the 30-day inspection period must be inspected in accordance with Provision 2, prior to being moved out of the quarantined area.

4. Restriction on Sources of Regulated Plants

Establishment may only receive regulated host and associated host plants from other sources under the following conditions:

- A) The regulated host and associated host plants originated outside the states of California, Oregon, and Washington, and are accompanied by a receipt or bill of lading, or

- B) The regulated host and associated host plants originated within the states of California, Oregon, and Washington, and are accompanied by a federal or state quarantine certificate for *Phytophthora ramorum*, or
- C) The uncertified* regulated host and associated host plants originated in the regulated area and they are not moved **interstate**, or
- D) The uncertified* regulated host and associated host plants originated within quarantined area, and:
 - 1) The Establishment notifies the Project within one working day of receipt of the shipment, and
 - 2) The Establishment safeguards, segregates, and holds the regulated host and associated host plants off-sale until they are inspected and released by the Project, and
 - 3) **The uncertified* regulated host and associated host plants shall not be moved out of the quarantined area.**

5. Maintain Identity

Establishment shall maintain the identity of all regulated host and associated host plants that are in compliance with Provisions 1 and 2, above. Establishment shall maintain the identity of all regulated host and associated host plants that originated from other sources that are in compliance with Provisions 3A, 3B, and 3C.

6. Quarantine Certification

The Establishment shall ensure that appropriate quarantine certification accompanies regulated host and associated host plants moved out of the quarantined area. Regulated plants may only be moved out of the quarantined area when in accordance with the above provisions and 7 CFR 301.92-8.

Establishment may provide appropriate quarantine certification for regulated host and associated host plants moved within the quarantined area from the date the inspection is completed and for a period of up to 30 days thereafter (or less if specified by the Project) when the regulated articles have been inspected in accordance with Provisions 1 and 2 above.

7. Records

Establishment shall maintain production records or records of receipt for all regulated host and associated host plants moved out of the quarantined area. Establishment shall maintain records, as directed by the Project, on each shipment of regulated host and associated host plants moved out of the quarantined area. Establishment shall provide such records to the Project Officer once every 30 days, or as specified by the Project Officer. Establishment shall allow the Project to perform periodic inspections to verify compliance with this Provision.

8. Infected Nursery Stock

If any regulated host or associated host plant within a nursery is found to be infected with *Phytophthora ramorum*, Establishment shall not move any regulated host and associated host plants out of the quarantined area until such time as the Project can determine that the nursery is free of *Phytophthora ramorum*.

9. Notice

Establishment shall provide at least **48** hours notice to the Project Officer when requesting an inspection.

10. Removal of Duff from Soil

Establishment shall remove all duff and leaf litter of regulated host and associated host plants from all nursery stock prior to movement out of the quarantined area.

11. Pre-notification Requirement

Establishment shall provide advance notification of outgoing shipments of any species of the genera *Camellia*, *Kalmia*, *Pieris*, *Rhododendron* (including Azalea), and *Viburnum* shipped to receiving States in non-regulated areas (all states except Oregon and Washington) effective March 1, 2011. This applies to all interstate shipping nurseries in all quarantined counties.

This requirement may be fulfilled by sending to the State Plant Health Regulatory Official (SPRO) in the receiving state (via mail, facsimile, or email) a bill of sale, manifest or other documentation that includes the following information: Shipping date, contact name, telephone number, full address of the consignee, name, telephone number and address of the shipper, Plant name and number of each plant species/variety shipped, and mode of transportation (air, courier, ground). Contact information of the SPRO in various states can be accessed on <http://www.nationalplantboard.org/member/index.html>.

* Uncertified regulated host and associated host plants are defined as regulated host and associated host plants that originated at a nursery within the states of California, Oregon, or Washington that is **not** under compliance agreement with the Cooperative Phytophthora ramorum Quarantine Project and are **not** accompanied by a quarantine certificate for *Phytophthora ramorum*.
